ABOUT ME

- I'm currently studying to become a Fullstack Java Developer. With a strong interest in both back-end and front-end development, I enjoy creating user-friendly and well-structured applications. I have experience working with Java, SQL, HTML/CSS/JS & TS, Angular, and C#. I am a solution-oriented person who thrives in both individual and team settings. I'm now looking for opportunities to grow as a developer and contribute to exciting and meaningful projects.

EXPERIENCE

Java Developer Program

Stockholms Tekniska Institut

📅 Sept 2024 – June 2026   📍 Stockholm, Sweden

- **Solid understanding of system development**, specializing in Java programming, object-oriented design, and database management.
- **Practical experience**, in both back-end and front-end development, using tools such as Node.js, SQL, Git, and Agile methodologies.
- **Acquiring problem-solving**, teamwork, and programming necessary for real-world software development, fully prepared for the IT industry.
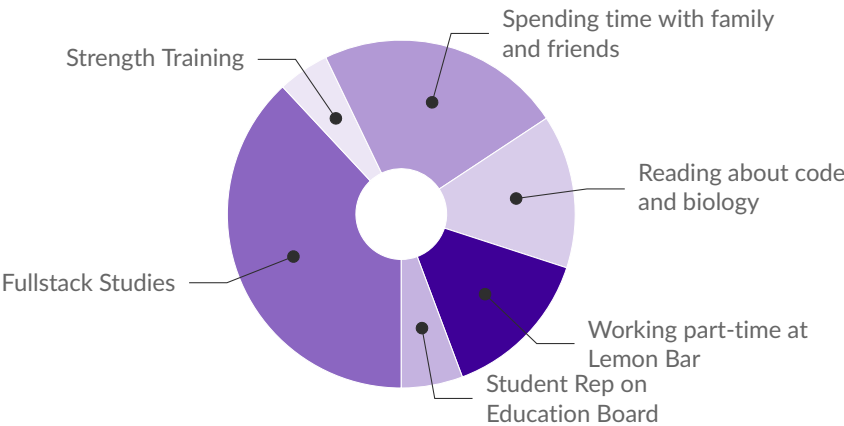

Bartender / Waitress

Restaurant Industry

📅 Feb 2018 – Ongoing   📍 Stockholm, Sweden

- **Collaboration & Communication** – Work effectively in teams with clear communication.
- **Process Optimization** – Streamline workflows to improve efficiency.
- **Flexibility & Adaptability** – Quick to adjust to new situations and changes in a dynamic work environment.
- **Stress Management & Customer Focus** – Experienced in handling high-pressure situations while ensuring a positive customer experience.

A DAY OF MY LIFE

- Strength Training
- Spending time with family and friends
- Reading about code and biology
- Working part-time at Lemon Bar
- Student Rep on Education Board
- Fullstack Studies

LIFE PHILOSOPHY

"Leisure without study is death - a tomb for the living person."

MOST PROUD OF

🏆 **The work**
it took to finish my Higher Secondary Education diploma while working full-time.

💗 **Having the courage**
to return to school and acquire an education in a field where I had no previous experience.

STRENGTHS

Hard-working   Time Management

Collaboration & Teamwork

Back-End Development   Java

Git & Version Control
